Baracca invites

Yvo van der Vat, member of Baracca, invited Jan Doms to create in June 2021 an exhibition / installation in the pop-up Baracca Underground Gallery 'GARAGE 824'. This typical garage, is located in a striking high-rise urban expansion district near the Northern Ring Road of The Hague.

Jan Doms

The artistic work of Jan Doms (1949) takes place at the interface between the arts and architecture in a broad sense. From the start of his career as an artist, performer and designer, his work has been continuously in demand and performed (inter)nationally to articulate new developments and (visionary) experiments in the urban landscape, often in the most unexpected locations and under exceptional circumstances.

Attention !

*Festive Opening:
Saturday 26/06 11 a.m.*
