architecture in motion - intercepted light

Jan Doms created the video animation film 'architecture in motion - intercepted light' in collaboration with Iwona Rozbiewska a.o.

The basis for this animation is formed by series of blind (relief-)prints, made by Jan Doms in the spring of 2019 in the Book Art Museum, Lodz, Poland, with the help of the printing press No. 9140 Karl Krause Leipzig.

This video animation film had its premiere screening with live music by Jan Doms on 25 April 2019 in Galeria Wschodnia, Lodz, Poland.

The Armenian premiere screening took place on August 19, 2019 at the Armenian Center for Contemporary Experimental Art in Yerevan and September 15 at the Mushtopia Festival in Gyumri.

The Mallorcan visual artist Marcos Vidal has put together the film and exhibition program of the new art space CAC Center d'art i creació, Palma.
